Career Objective

I am a dedicated and detail-oriented third-year Bachelor of Applied Information Technology student at Wintec, currently gaining real-world experience as an IT Assistant at Tui Medical and an intern at Knowledgeware. I am now seeking a place in a graduate program where I can continue building on my skills in software development, technical support, and database management. My background includes hands-on experience in troubleshooting, system maintenance, and full-stack application development, supported by strong communication skills and a proactive approach. I'm eager to contribute to a dynamic team, learn from industry professionals, and grow into a confident and capable IT professional.

Key Skills

- **Languages & Technologies:** Python, Java, C#, PHP, HTML5, CSS, JavaScript, Kotlin, PostgreSQL.
- **Frameworks & Tools:** .NET MAUI, Android Studio, Bootstrap, Git.
- **Soft Skills**: Strong communication, teamwork, adaptability, problem-solving, multitasking
- **Technical Proficiency:** Windows, macOS, PC hardware/software maintenance, Microsoft Office.
- **Technical Support:** Confident in troubleshooting, system setup, and translating technical concepts to users.
-

Projects

Quick Response – Information Mobile App
- Developed a Kotlin-based mobile prototype using Android Studio.
- Designed UI with multi-screen navigation and user-friendly layout

2D Platformer Game
- Created in Godot, themed around time travel through Ancient Egypt and futuristic New Zealand.
- Focused on level design, character mechanics, and collectible logic.

Animal Management Application
- Developed a .NET MAUI app to interact with a livestock database.
- Implemented CRUD operations, forecasting logic, and intuitive UI.

E-Commerce Store
- Built using HTML, CSS, JavaScript, and Bootstrap.
- Explored responsive design, product listings, and front-end interactivity.

Personal Website
- Learned on Do's and Don'ts while designing and creating a web site
- Looked at initial designing concepts and basic HTML and CSS
